# FEE SCHEDULE

Amended: August 18, 2022 Effective: September 01, 2022 (Reviewed August 15, 2023 – No Changes)

Building Permit Fees are based upon multiplying the square footage of the construction project by the appropriate use and type category for the project as presented in the ICC Building Valuation Data Table.

Alterations not involving the addition of square footage are based upon a reasonable estimation of construction value, which may be required to be verified with actual construction cost data.

Pre- manufactured unit fees shall be based upon 50% of the normal on-site construction costs. *Exception:* Units placed in state licensed mobile home parks on existing foundations. These permit fees are \$100.00.

Residential post frame utility buildings are calculated at \$15.00/sq. ft.

Covered decks, porches and uninsulated sunrooms are calculated as utility use group in the Building Valuation Data Table.

Finished basements for all R-3 groups are calculated at \$35.00/ sq. ft.

#### **TRADE PERMIT FEE SCHEDULE**

Mechanical, Electrical and Plumbing permit fees are as detailed in the line-item list on the respective permit application.

## **INSPECTION FEES AND POLICY**

Permit fees include the fees for the required number of inspections for the project and include one re-inspection per inspection type. (E.g. footing, framing, energy, etc.)

Additional re-inspections are \$55.00 each.

Property maintenance inspections are \$100.00 each. Each inspection includes the drafting and mailing of a certified letter to the property owner/responsible party.

Follow up inspections are the same as above.

Special inspections requested by Property Owners / Lessees are \$55.00 each.

\$55.00 per hour is charged for any additional research, pre-construction consultation visit or inspection work needed beyond the regular scope of the inspection and enforcement process.

For any work started without obtaining the required permit(s):

- If the permit application is submitted within 5 business days of notification and no site visit / stop work order is required, no fine will be incurred.
- If the permit application is submitted within 5 business days of notification and a site visit / stop work order is required, a \$55.00 fine will be added to the permit cost.
- If a permit application is NOT submitted within 5 business days of notification, the permit cost will be doubled.

#### FEES FOR INSPECTOR'S APPEARANCE IN COURT PROCEEDINGS

Fees for court time are \$100.00 per hour, including travel time (with 1 hour minimum). Note: Legal fees incurred by KABA may result in additional fees.

#### **Important Points**

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.
- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.
